

Insta-Berm

Secondary Containment

The Insta-Berm is a durable and easy-to-use environmental safeguard used for the secondary containment of toxic materials in many applications to help industries meet today's strict guidelines on environmental protection.

L-Rod Design

- L-shaped rods hold up the walls, yet fold down easily for vehicle entry and exit
- Fully collapsible for compact storage and easy transport
- Instant deployment without any tools
- Wide range of standard sizes and custom sizes available
- Easily cleaned and maintained
- Includes eyelet patches for staking down the berm
- Appropriate for containment of waste water, petroleum products, and various chemicals

Fabric Options

- **Chem-Shield:** Chemical resistant fabric
- **Arctic-Shield:** Chemical resistant fabric for temperatures to -50 degrees Fahrenheit

Options

Low-cost drain fitting - this fitting can be opened to let out accumulated rainwater, or connected to a hose to pump out spilled product

Over-fill protection - allows precipitation to be drained from the Insta-Berm while containing spilled chemicals

RainDrain- removes hydrocarbons and additives from captured water through gravity drainage
